

Mateusz Cybulski

Java developer

Experience

2017- now Freelancer

Independent programmer. J used to face new challenges and issues everyday. I made my own website, one commercial project and a few apps just to improve my abilities.

04-05 2018 Hepldesk - The university of humanities and economics in Lodz

Month of internship in The University of Humanities and Economics in Lodz helpdesk. I was in charge of service work and technical support for the Innovation education school, The University of Humanities and Economics in Lodz and on a huge area around Rewolucji 1905r connected with AHE.

Projects

Stolarnia pod jałowcem

stolarniapodjalowcem.pl

First commercial project designed and made fully by me. I had total freedom in creating so I decided to make something untypical and maverick. Most of elements is generated by JavaScript. JQuery code resize website depending on size of a browser and is in charge of the filtering mechanism. Ajax and VanillaJS get a list of products from chosen directories and generate adequate divs.

Portfolio

cybulskimateusz.github.io

My portfolio and first bigger website. JS is in charge of scrolling mechanism.

Education

Java od podstaw do eksperta - twórz własne aplikacje (Udemy course by Arkadiusz Włodarczyk)
1 year to ago

Technikum Informatyki Edukacji Innowacyjnej Łódź (Technical IT High School)
This year

About me

IT has always been my passion. This is why, when I was younger and my friends were playing computer games, I was reading source codes of websites and trying to make my own apps instead. My commercial experience isn't big, but I learn really fast, what always used to surprise my teachers.
